

**Niagara District  
Communications Officer Report  
For District AGM, 17 April, 2010**

I missed a number of district council meetings this year as I volunteered to teach a Radar Course. Unfortunately, the teaching nights conflict with District Meetings. Hopefully it will be possible to adjust the Guelph Training night to allow folks that are busy teaching to also attend District council meetings. We did note a number of errors in the Radar course. I am preparing a report for the Guelph TO, and he will forward the report to the DTO when it's completed. The report is now about 75% complete.

Filling in for Ken Budd who was ill at the time, I had the opportunity to speak about CPS at the Royal City Men's club in Guelph on the 4<sup>th</sup> February. It went over well and resulted in a couple of PCOC students.

The District web site is up to date. The Commander's request that officers' reports be posted prior to our District Council meetings has been very well received by many District Officers. I try to get them posted as soon as I receive them.

I do however; admit it's a challenge when working on an unreliable connection in Florida. Partly, I suppose, it's, and I quote; "Wine is the answer- what was the question?"

I would like to congratulate Commander Jim on a Big Job very well done. A great summer aboard Summer Dream would seem appropriate. Wishing all a wonderful boating season.

Respectfully submitted  
DCO Ernest Whalley SN
