

**FORT ERIE POWER & SAIL SQUADRON
ANNUAL GENERAL MEETING
APRIL 17, 2010**

COMMANDER'S REPORT

Niagara District Commander Jim Brown, Bridge Officers, and Guests:

Despite a slow start to our training season, we finally managed to have a Boating Course and a Seamanship Course, which have just recently finished. We had three students successfully complete the Boating Course and five students successfully complete Seamanship. Fort Erie Squadron also conducted three Boat Pro Courses and a Maritime Radio Course. We also had a booth at the Niagara Outdoor Show in April 2010, where individuals had the opportunity to challenge the Boat Pro Exam.

We continued our association with Swiftwater Power Squadron by attending their Bridge meetings, the Commander's Brunch and their Rendezvous in June.

I attended most District Council Meetings as well as the National Conference held in September at Sherbrooke, QC. I attended the Squadron Commanders' Meeting, the Marep and MAP2 seminars.

We concluded the year with the two most important events of the year: the Graduation of nine Boating Course students and the Squadron AGM, in which we pledged in a few new members.

Respectfully submitted,

Steven Cheu, P
Commander
Fort Erie Power & Sail Squadron
