

COMMANDER'S REPORT
DISTRICT MEETING
March 15, 2011

As discussed in my last report, we are currently operating a CPS display booth at Niagara Square. We have had some great interest in our courses and are running another Boat Course for another 5 students. That brings our total for the full Boating Course to 11 students. We have also processed approximately 20 PCOC students and 5 ROC students.

On the weekend of March 12 and 13, Bridge members setup a CPS display at the Sportsman Show at the Optimist Club here in Niagara Falls. We were offering the Challenge the Test to all interested persons. We did end up testing 2 people and referred about a dozen people to the CPS booth at the Niagara Square.

We are in the process of setting up an Instructors Course to increase the number of instructors with the Fort Erie Power Squadron. This is a need we have identified and in order to continue at the pace we are at right now, we need them in a quick hurry.

On April 17 we have our graduation luncheon at Betty's Restaurant in Chippawa.

Respectfully Submitted
Stephen Alexander
Commander Fort Erie Power and Sail Squadron
